PHOTO RETOUCHING

Digital Retouching \$65/HR

Digital photo retouching pricing is based on an hourly rate. Each retouching client has different needs and some may have larger projects for me to quote them. My usual “going rate” for retouching is \$65/hour. Please call me to chat about what your retouching needs are specifically and I can estimate what it will cost for your project.

Digital Scanning \$50/HR

Typically digital scanning is done on-site, however if necessary I may have to resort to having the photograph or print scanned by an outside source depending on your needs. Please call me today to see how much your project will cost.

If you decide to take the digital files to a shop and have them printed my recommendations are:

Image Craft in Phoenix
