FAMILY PORTRAIT SESSIONS

Group/Family Portrait Session

\$450
Starting at

Family portrait photography captures the essence of connection, love, and unity within a family unit. It freezes moments in time, preserving cherished memories for generations to come. Through carefully composed scenes and candid shots, family portrait photography showcases the unique dynamics and personalities of each family member. Whether taken in a studio setting or amidst the natural beauty of the outdoors, these images serve as timeless reminders of the bond shared between loved ones, evoking warmth and nostalgia with every glance.

Family portrait sessions typically last one to two hours and accommodate up to five individuals. You'll receive a minimum of 15 fully edited images uploaded to Google Drive or a personalized USB stick for you to keep. Feel free to change your outfit as many times as needed within the session time!

Family portrait sessions are for on-location sweet spots in the valley. In-studio sessions are reserved for individual portraits.

**Included in the session fees are carefully selected and edited images from your session, available for upload to Google Drive or transfer to a USB stick, comprising all chosen digital files © Amy Daggett Photography. Please note, prints are not covered by the session fees. Should you opt for prints, you may take the digital files to a print shop, my recommended options are:*

**Image Craft in
Phoenix**

3401 E Broadway Road
Phoenix, AZ 85040
